

Argentine-born Claudia Carina Lopez is Murillo Malnati Group's Design Director and the visionary behind the Woodley-Wardman Condominium. Ms. Lopez is in charge of all aspects of design for single-family dwellings and multi-family projects for the company. Previously she was Managing Partner and Chief Operating Officer of Construction Technologies Argentina in Buenos Aires, Argentina. Ms. Lopez holds Master's Degree in Architecture and Urban Development from Universidad de Belgrano in Buenos Aires.

Georgetown-based architect Christian Zapatka specializes in synthesizing classicism and modernism and bringing grandness to living spaces. Upon graduation from Princeton University, Zapatka was the recipient the coveted Rome Prize in Architecture, an award granted to only two U.S. architects every year. Later he apprenticed under architect Michael Graves. In the Washington Metropolitan area, Christian Zapatka has designed over 100 residential renovations/ expansions for townhouses, free-standing houses and condominiums.

## YOUR OWN PANORAMIC VIEW FROM HISTORY MADE MODERN...

Murillo/Malnati Homes brings to market its latest offering: breathtaking views like no other in one of Washington's most exclusive condominiums: The Penthouses Residences at the Woodley-Wardman, Winner of Delta Associates' Award for "Best Boutique Condominium in the Mid-Atlantic: 2011".

Designed as a collaborative effort between architects Carina Lopez and Christian Zapatka, the Penthouse Residences' interiors are designed to maximize the sweeping views of Rock Creek Park, the National Cathedral and the Washington skyline and beyond. Each residence is configured to take full advantage of natural light, unique panoramic views and History Made Modern®.
